MAREA

EMBARCARTE · INSTALLATION AND COMMISSIONING

NOT A CERTIFICATE

What this document is. A field record for noting only installation facts **actually observed** on the date shown. It does not attest the technician's competence, product conformity, water resistance or seaworthiness, and does not replace any required inspection, test or certification. Complete only what you verified; leave blank what does not apply.

1. Identification

Customer / owner ..... Vessel (name) .....

Phone / email ..... Registration / ID .....

Length (m) ..... Home port .....

Type ..... Work location .....

Date (dd/mm/yyyy) ..... Work type .....

Work order / reference ..... Installing technician .....

Company ..... Technician phone .....

Professional ID (if applicable) ..... Technician signature (at end) .....

Do not record personal data that is not needed for the service. This form does not require third-party identification or conformity signatures.

2. Installed components

Family	Model / edition	Serial number	Location on board	Date	Firmware / recorded version

Record only components actually installed and verified. Do not record planned components, unverified third-party supplies or serial numbers you did not read from the unit.

3. Checks performed

Check	Observed result	Notes
Physical mounting and fixing, no play	☐ Yes ☐ No ☐ N/A	
Cable routing and strain relief	☐ Yes ☐ No ☐ N/A	
Connectors seated and latched	☐ Yes ☐ No ☐ N/A	
Polarity, fuse and power protection	☐ Yes ☐ No ☐ N/A	
Data and power cabling separation and order	☐ Yes ☐ No ☐ N/A	
Power-up and functional test after installation	☐ Yes ☐ No ☐ N/A	
Screen legibility in the position of use	☐ Yes ☐ No ☐ N/A	
Controls accessible and operable in the position of use	☐ Yes ☐ No ☐ N/A	
Firmware version recorded	☐ Yes ☐ No ☐ N/A	
Configuration copy or record made	☐ Yes ☐ No ☐ N/A	
Documentation handed to the customer	☐ Yes ☐ No ☐ N/A	

These boxes record only what the technician observed. They are not a certificate of conformity and not proof of water resistance, compatibility or performance.

4. Technician observations

Describe what was observed, not unverified interpretations or performance promises. State the unit or area concerned where relevant.

5. Open issues

Ref.	Description of what was observed	Status	Owner	Target date

An open issue does not become resolved through the signature on this document. Record the closure date only when evidence of resolution exists.

6. Handover notes

- ☐ Documentation and manual handed over
- ☐ Fuse and connector locations shown
- ☐ Limitations and warnings explained
- ☐ Warranty terms handed over (if any exist)
- ☐ Basic use explained to the customer
- ☐ Support contact details provided
- ☐ Accessories handed over (list which)
- ☐ Open issues still to be closed

Do not record the customer's conformity on their behalf and do not sign for them. If there is no receipt signature, say so and leave it blank.

7. Safety considerations

- Isolate power and verify the absence of voltage before working.
- Follow the manufacturer's documentation for mounting, wiring, fuses and commissioning. Do not modify connectors or wiring beyond those instructions.
- Assisted steering systems require continuous human supervision and immediate manual authority. No autonomous capability is recorded here.
- An emergency stop (E-stop) exists only where the product defines one and must not be shared with other functions. Do not install or replace an E-stop without verified instructions.
- This form does not verify third-party compatibility, marine-environment behaviour, water resistance or regulatory conformity.
- Record any safety observation, even if it could not be resolved during the visit.

THIS DOCUMENT IS NOT A CERTIFICATE

It does not certify the technician's competence, product conformity, water resistance or any regulatory or certification-body approval. Any claim of a "verified installation" requires independent evidence and is not covered by this form. It contains and reproduces no certification, CE, NMEA, IP or equivalent marks, and must not be presented as an official document.

Installing technician signature

Name: _____
Date: ____ / ____ / _____

Customer / owner receipt signature (if applicable)

Name: _____
Date: ____ / ____ / _____

Signatures attest only that the documentation was handed over and the visit took place. They do not attest technical conformity, approval or seaworthiness.
